Gender Equality Program (2021-22)

Gender sensitization

Gender sensitization is the process of transforming men and women's stereotype mentality, a mind-set that strongly believes men and women are unequal creatures that must operate in separate socioeconomic spaces. It aims to educate people on the differences between sex and gender, how gender is socially produced, and gender stereotypes. It assists them in determining which gender stereotypes are true and which are false. The goal of gender sensitization is to raise awareness of the relevance of gender sensitivity in the workplace among working professionals. Individuals who are not sensitive to the requirements of one gender may be unable to comprehend the needs of the other.

Gender is a socially learned behaviour based on male and female social expectations. Women and children are the most vulnerable members of society under this situation. And it's the unreasonable pressure placed on boys and girls to conform to established masculinity and femininity stereotypes. Girls are subjected to unjustified social control, discrimination, and dominance. Emotional, kind, and scared boys are discouraged. Gender Sensitization provides a clear and exact vision of gender, assisting in the understanding that GENDER is not about Women', but rather 'People'.

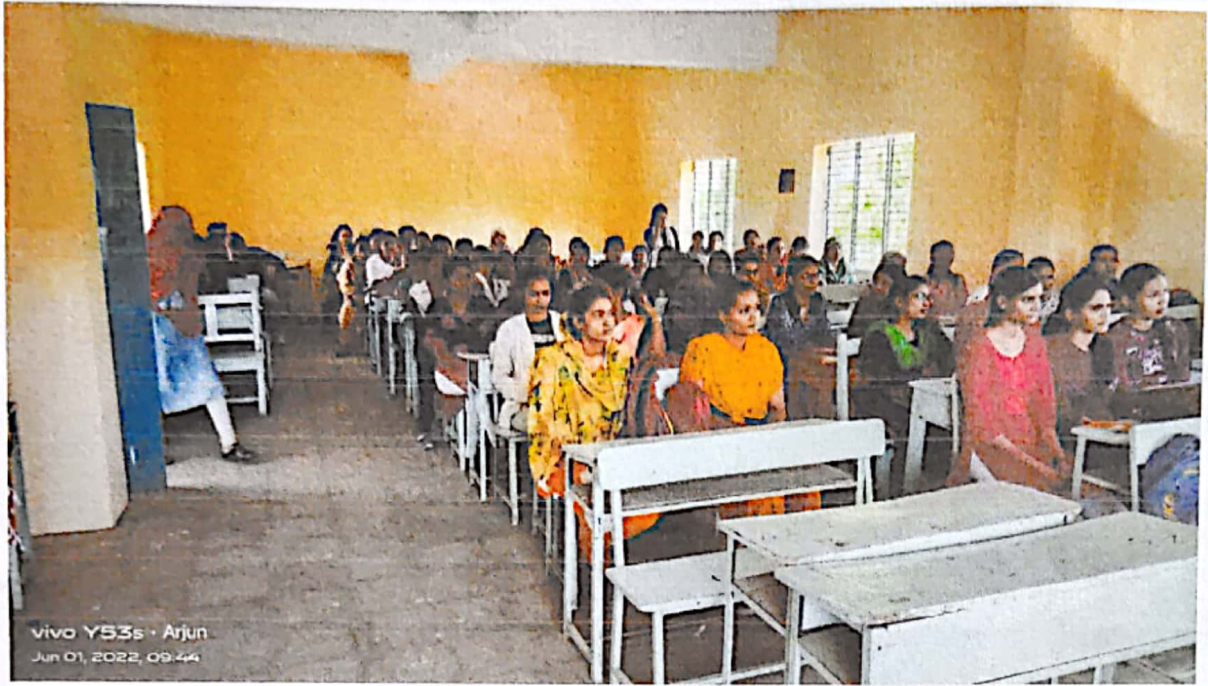

Gender sensitization is a need that has been felt and recognised by everyone. In this reference Bhagwantrao Shivaji Patil Mahavidyalaya. Aim at delivering Gender sensitization to the community as part of the grass-roots gender intervention. Through several community ceff Some prose and poetry in UG and PG Syllabus concerning Women Empowerment are provided to the girls student in order to achieve keen and update knowlage about Women's enhancment by Department of English .

The academic efforts in the direction of gender equality are supplemented by co-curricular activities of the Women Empowerment cell that regularly hold discussions, talks, seminars, in the college.
