## Policy for Internal Assessment

The college believes that assessment is the part and parcel of the teaching learning process. The assessment should foster and be instrumental to judge the inherent and acquired skills of students. It should stimulate critical and creative thinking among students and inspire them for independent thinking. The college considers that the main objective of internal assessment is to enhanced the speed of learning. Internal Assessment judges the knowledge, understanding and the skills of the students.

### Aims of the policy

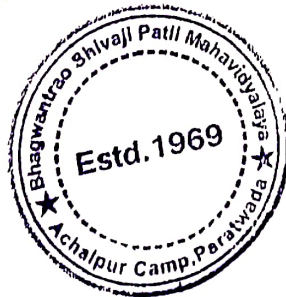

- To evaluate the participation of students in various academic co-curricular and extra-curricular activities.
- The internal assessment promotes the acquired skills of the students.
- The internal assessment has a variety of modes.
- It supports the objectives of the prescribe syllabus.

### Planning and Organization

- The college is aware of the needs of internal assessment for the students coming from diverse background. The formal assessment method comprises unit test, home assignment and other suitable methods.
- The informal assessment method comprises attendance of the students their response to the teachers interest in the field project participation in seminars and classroom teaching.
- There is examination committee in the college which looks after examination related aspects and responsible for the overall examination.
- The faculty members and the head of the departments plan the schedule of unit tests, seminars and home assignment.
- The examination committee circulates the notices among the students.
